Enrichment booklet

Modules 3 and 4

2017

Dear Student/Parent/Carer

The Enrichment Programme aims to offer our students experiences and activities that go beyond the curriculum. We want every individual to extend their skills and talents in a range of areas, and this booklet gives you an insight into the clubs and activities available to our students.

The Programme is part of the school week, taking place from 3:40pm to 5pm every Tuesday, Wednesday and Thursday. It is a requirement that all students attend at least one of these sessions. Please find the form to complete on the back page.

Each activity runs for the duration of 2 modules, so students can make three choices over the course of the year. Whilst numbers are limited for some courses, we hope that these regular changes will allow every individual to try their first preference at some point. Some of the courses have accreditation attached to them; others will simply enrich your CV and any applications for education or employment placements.

We also intend these sessions to offer opportunities that will support the mainstream curriculum. At certain points in the year, small groups of students will be allocated tuition sessions in some subject areas as we identify the need. If students are invited to these compulsory sessions, they will take priority over other enrichment activities.

If you would like more information, please contact: Mr Lewis at office@uaesouthbank.org.uk

Important Information

- Students should be aware that they may not be allocated their first choice, they must therefore ensure that their second and third choices are courses that they are prepared to participate in, bearing in mind the day it takes place.
- Students who fail to make their choices within the allotted time period will be allocated to courses with availability.
- The sooner students make their choices; the more likely they are to receive their preferred choice; if left too long then the most popular sessions will be full.

The Enrichment Booklet contains a brief description of each activity describing whom the course may appeal to and the day it takes place.
