Create your future

Dear Parents/Families

Unfortunately, the heating system for the school is not working. We are connected to the heating system on the Aylesbury estate which stopped working at the weekend. As a result, the temperature in classrooms is too low for us to expect students and teachers to work effectively. I have therefore made a decision that we shall send students home at 1.35pm today.

Those that cannot safely go home will be supervised on site until 3.40pm.

We expect to be open as usual tomorrow. If we do have to remain closed, we will text parents by 7.45am and will also put a notice on the school website www.uaesouthbank.org.uk.

Yours sincerely

John Taylor

Principal
